

Cabmed, a division of Cabstrut, specialises in:

- Installation and servicing of all medical gas outlets and machinery in wards, theatres, casualty and plant rooms;
- Maintenance and installation of all medical gas manifolds and plant room machinery;
- Laboratory gas installations and maintenance;
- Supply and installation of hospital lighting and unique hospital bedhead units.

DISTRIBUTION/TARGET MARKET

Cabstrut products are available through all Voltex distribution branches. Cabstrut distributes from nine branches in the main centres of South Africa, Botswana and Namibia. Specific target markets include electrical distributors, OEMs, municipalities and large industrial, mining, commercial and residential contractors.
